

February 11, 1936

Mr. J.T. Leigh
Cedar City, Utah

Dear Sir:

REL: COAL CREEK DISTR.

In checking the records of stream flow which you submitted during the 1935 irrigation season, I find that the records of this office are missing for the months of May, June and December. As suggested by Mr. Jerman while he was in your office February 2, would you kindly forward your records of these months to this office when you submit your distribution report which, I understand from Mr. Jerman, will be in the very near future. When your written report is received, together with the stream flow for the three months, which is missing from the files, it can all be bound together, making a complete report for the 1935 season.

Yours very truly,

T. H. Humpherys
STATE ENGINEER
